## Bridal Feature

Peterborough Evening Telegraph | Wedding Booklet

Spring is in the air and its Wedding season once again. Back in vogue again on the one hand are strong structured shapes similar to Audrey Hepburn. Included in this are bows, rolls, barrel curls and French pleats these styles do stay in very well and therefore are often favoured by brides.

But on the other hand is the opposite, very soft rolls into the nape of the neck and soft curls similar to what has been seen on Cheryl Cole recently. Curls scraped to one side to give an asymmetric look can enhance and soften a bare shoulder dress. Whereas bold shapes can be more sophisticated, curls can look more romantic.

For the very trendy how about a 60's Beehive like Pixie Lott, this can be worn half up or fully down. Whatever your style or idea all can be catered for by our highly trained team of bridal specialists. Pre wedding day Rehearsals for the more discerning can be arranged.

For the Guys forget the new rough bearded look, definitely the smarter sharper clean-shaven look for the Big Day. From the middle of July the salon should be completely refitted and feature a V.I.P area. One of its main functions will be to cater for brides and bridal parties.

This will enable the salon to give a Special and more personal service. Michael is looking to engage a nail technician and makeup artist to help deliver a complete package.
